

Gooney: Soft and Sticky

A Redesign of ID Portal

Maarten Woudstra
Anna Broers

Sarika van Wijgerden
Mats Goemans

Problems with ID Portal

- It looks like you're on your own computer, not on the internet.
- ID Portal does not sort documents on year.
- The structure of where to find what is unclear (e.g. project and client feedback)
- Codenames for assignments are hard to recognize
- Evidence folder and ID Portal are separated

Golden tips used in our design

- Breadcrumbs
- People should have the possibility to ask for help
- Group in the layout
- Keep everything structured and clear
- Keep unclear names and buttons to a minimum

Gooley: Soft and Sticky
Don't make me think
